

Grand Junction Rail-with-Trail Feasibility Study

October 2006
City of Cambridge, Massachusetts

Acknowledgements

City Manager

Robert W. Healy

Deputy City Manager

Richard C. Rossi

City Council

Kenneth E. Reeves, Mayor

Timothy J. Toomey, Jr., Vice Mayor

Henretta Davis

Majorie C. Decker

Anthony Gallucio

Craig A. Kelley

Brian Murphy

E. Denise Simmons

Michael A. Sullivan

City Team

Beth Rubenstein, Assistant City Manager for Community Development

Susan Glazer, Deputy Director, Community Development Department (CDD)

Susanne Rasmussen, Director, Division of Environmental & Transportation Planning, CDD

Cara Seiderman, Feasibility Study Project Manager, Transportation Program Manager, CDD

Rosalie Anders, Project Coordinator, CDD

William Deignan, Transportation Project Manager, CDD

Les Barber, Director of Zoning & Land Use, CDD

Taha Jennings, Neighborhood Planner, CDD

Brendan Monroe, GIS Planner, CDD

Susan E. Clippinger, Director, Traffic, Parking & Transportation Department (TP&T)

Jeff Parenti, Traffic Engineer, TP&T

Jason Schrieber, Transportation Planner, TP&T

Lisa Peterson, Commissioner, Public Works Department

Owen O'Riordan, Assistant Commissioner for Engineering & City Engineer, Public Works Dept.

Donald A. Drisdell, City Solicitor, Cambridge Law Department

Nancy Glowa, Deputy City Solicitor, Cambridge Law Department

John Burekardt, Cambridge Bicycle Committee

Consultant Team

Alta Planning + Design

SEA Consultants

McMahon Associates

Special thanks go to John Burekardt and the Cambridge Bicycle Committee for their August 2001 document, "Grand Junction Multi-Use Path: A Proposal," which provided substantial information for this report.

CONTENTS

Executive Summary	v
Trail Alignment and Design Features	vi
Next Steps	vi
1. Introduction	1-1
Project Background and Significance	1-1
Project Location	1-2
Project Benefits	1-3
Connections to Regional Pathways	1-3
Open Space Recreational Resource	1-4
Trip Mitigation	1-5
Bicycle Transportation	1-5
Pedestrian and Transit Trips	1-5
Other Benefits	1-5
Other Proposed Uses: Urban Ring	1-6
Background Documents	1-7
Project Process	1-7
2. Existing Conditions	2-1
History	2-1
Project Setting	2-2
Population and Employment	2-2
Adjacent Land Uses and Zoning	2-3
Property Ownership	2-6
Current and Proposed Rail Operations	2-9
Track Layout	2-9
Current Rail Operations	2-11
Proposed Rail Operations	2-12
Existing Safety Conditions	2-13
Pedestrian Access to Right-of-Way	2-13
Train Operations	2-13
3. Alternative Alignments	3-1
Section 1: Charles River to Ft. Washington Park (RWT)	3-4
Section 1: Charles River to Ft. Washington Park	3-6
Section 1: Charles River to Ft. Washington Park	3-7
Section 2: Ft. Washington Park to Massachusetts Avenue (RWT)	3-8
Section 2: Ft. Washington Park to Massachusetts Avenue (RWT/BRT)	3-9
Section 2: Ft. Washington Park to Massachusetts Avenue	3-10

Section 2: Ft. Washington Park to Massachusetts Avenue	3-11
Section 3: Massachusetts Avenue to Main Street (RWT)	3-12
Section 3: Massachusetts Avenue to Main Street (RWT/BRT)	3-13
Section 3: Massachusetts Avenue to Main Street.....	3-14
Section 3: Massachusetts Avenue to Main Street.....	3-15
Section 4: Main Street to Binney Street	3-16
Section 4: Main Street to Binney Street	3-17
Section 4: Main Street to Binney Street	3-18
Section 5: Binney Street to Cambridge Street.....	3-19
Section 5: Binney Street to Cambridge Street.....	3-20
Section 5: Binney Street to Cambridge Street.....	3-21
Section 6: Cambridge Street to Gore Street	3-22
Section 6: Cambridge Street to Gore Street	3-23
Section 6: Cambridge Street to Gore Street	3-24
On-Road Options for Traveling in the Grand Junction Corridor	3-25
Potential Impacts on Utilities.....	3-27
Environmental Analysis	3-28
Intersections.....	3-30
4. Trail Design	4-1
Recommended Width	4-2
Signage and Striping	4-2
Intersections and Crossings	4-2
Design Speed	4-2
Horizontal Alignment	4-2
Lateral Clearance on Horizontal Curves	4-2
Gradients.....	4-3
Drainage.....	4-3
Bollards / Barrier Posts	4-3
Signing, Markings, and Traffic Control Devices	4-3
Rail-with-Trail Issues	4-3
Minimum Required Setback.....	4-3
Fencing and Barriers.....	4-4
Vegetation.....	4-7
Trail-Roadway Crossings	4-7
Crossing Prototypes	4-9
Railroad Crossings.....	4-12
Other Trail Design Issues	4-13
Utilities and Lighting	4-13
Signing and Marking.....	4-13
Entrance Features.....	4-13
Landscaping	4-14

Public Art	4-14
Accessibility	4-14
5. Implementation, Phasing and Cost	5-1
Options.....	5-1
Phasing Strategy.....	5-2
Issues to Overcome	5-4
Cost	5-5
6. Management	6-1
Responsibilities of the City of Cambridge	6-1
Design Management.....	6-2
Operating the Grand Junction Trail - General Principles	6-2
Coordination of Operating Responsibilities and Procedures	6-3
Developing Trail Use Regulations	6-3
7. Legislation, Liability, and Insurance	7-1
Overview of Concerns	7-1
Definitions and Laws.....	7-2
Available Legal Protections.....	7-2
Liability Exposure Reduction Options	7-4
Property Control	7-4
Acquisition	7-4
Easements	7-5
Licenses	7-5
CSX	7-6
Risk Reduction	7-6
Summary.....	7-7
Appendix A: Opinion of Probable Cost.....	A
Appendix B: Property Ownership	B
Appendix C: Detailed Trail Layout	C
Appendix D: Comparable Trails.....	D
Appendix E: Environmental Analysis	E
